Cosmically speaking, there is little chance that the Grant will be increased at the end of December, for the million to whom it had been granted are yet slumbering peacefully amidst the shadows of their own karma; but if We are allowed, by Sanat Kumara, to return to this Temple early in the New Year, We feel that it should do much to awaken them, and by July We should have an appreciable harvest. The designing of the course of the Flame currents for 1954 will depend upon the Divine Thought Form as it is lowered by the Silent Watcher to Sanat Kumara on the 31st of December. We have thought that it would be a lovely experience if you would remain over the midnight hour on New Year's Eve when you would receive it at the same time it is externalized at the Teton. This would also be another milestone in the history of the planet. We are in unusual days, dear ones.

Blessings and Love,

MAHA CHOHAN

Shamballa, November 21, 1953

Beloved Friends:

Tonight the Beloved Sanat Kumara Himself wears Royal Purple banded heavily in deep embroidered Gold - a truly magnificent figure. Seated upon His Throne before the Great Altar, the Aureole of colors which emanate from His Nature radiate like mother-of-pearl and enfold the whole atmosphere about Him in a beautiful oval of scintillating light so that when you step within the room, you do not, at first, discern His Majestic Figure within the Light which is externalized and represents the blanket of electronic substance which has enfolded our planet and her people and been their salvation through the centuries.

The homage, the adoration, and the devotion to Sanat Kumara have occupied Our days and Our

evenings since the evening of the 15th, but, beginning now with the focusing and the direction of the Transmission Flame, the Ascended Masters, the Angelic Host, and the awakened mankind of Earth will begin the offering of their year's endeavors at the feet of the Lord of the World.

First will come Lord Michael and the Beloved Micah (the Angelic Being Who represents Union) bearing in Their hands the composite energy of both ascended and unascended lifestreams that has been invested in the New Endeavor. Then will come Lord Maitreya and Serapis Bey representing the million lifestreams who have been given the Grant of Grace by the Cosmic Law. Next will come the Lord Maha Chohan and the Beloved Morya offering Their endeavors through the Bridge, the Bulletin, and the published addresses in booklet form. The Mighty Chohans of the Rays will follow, each One representing His own Retreat, and with Them will come those of you who are Their conscious chelas, as well as those other faithful chelas who work in orthodox, scientific, educational, artistic and musical endeavors.

From the very beginning, the Ceremonials have been very beautiful. The Main Temple is several hundred feet in length. From the vaulted ceiling over the Altar is suspended Sanat Kumara's Star. The Great Three-fold Flame is focused upon the Altar which is approached by marble steps in several tiers, so that the Flame Itself is a good twenty feet above the eye level of the audience. The entire chamber is just a huge bower of the most exquisite flowers which are even suspended from the ceiling and festooned around the long windows.

Tonight, all the participants, and even the atmosphere itself, seem to have taken on a festive air. There are Visitants here from every star and planet in Our galaxy, each One bringing, within His own Aura, the heritage of His Light, His Consciousness, and the pressure of His Illumined Feeling, and accompanied by the Members of the Angelic Host and Celestial Beings Who comprise His Court.

All over the vast continent of Asia, the Light from Shamballa can be seen even with the physical sight; for the nights are not as dark, nor the days as filled with the haze of human creation since the great doors of Shamballa have swung wide on their golden hinges and the Celestial trumpeters sounded the first note at inner levels, signifying that the Lord of Life was ready to hold audience and the Spiritual Court was assembled awaiting the coming of those Intelligences who had vowed to use Their energies in helping to redeem this dark star, as well as the conscious and unconscious chelas of Earth who will offer the harvest of their year's endeavors at His feet.

The great procession will start at the Temple door; the Beings bringing Their harvest will each carry a vessel symbolic of the garnering of Their energies. They will walk slowly up the main aisle, make obeisance to the Flame, and then kneel before the Lord of the World, placing the vessel at His feet. He will bless each One, who will then take His or Her vessel from the Altar step and pour its contents into a great white urn held by a magnificently clothed Seraphim standing at either side of Sanat Kumara. As that act is performed, the energies through the silver cord at each one's head magnetizes the endeavors of the year. Each

dedicated pair then part, one going to the right and the other to the left, taking seats prepared for them, making room for the next pair who will proceed likewise until every member in the vast procession has reverently placed His or Her harvest at the Lord's feet.

The Seraphic Choir which will accompany the processional has already taken its place in the atmosphere, and Their voices are muted in preparation for the exquisite music that will be rendered throughout the Ceremony, which will begin at exactly nine o'clock. Already I can see Lord Michael with the Beloved Micah standing at the Golden Temple doors at the head of the glorious procession which stretches down the many steps into the main avenue and even over the Bridge itself.

Each of your inner bodies is there even as My words are spoken. You carry a vessel fashioned from your own thought, and in it is your whole year's accomplishment. When you draw the first breath of Flame into your body, the Flame on the Great Altar will begin Its expansion and every electron that has been used in impersonal service to life will add to the size, the brilliance and the power of the Three-fold Flame, and none will escape recognition and benediction of the Beloved Sanat Kumara Himself.

The Temple is empty as yet because everyone who has had any part in the evolution of this planet is in the procession. A member of the Cherubic and Seraphic Host will give the signal for the first breath, when the procession will proceed slowly along the central aisle, each member breathing in and expanding the Three-fold Flame even as He walks. Sanat Kumara will rise

and, facing the oncoming Archangels, await Their Presence at the foot of the Altar.

The Three-fold Flame as drawn forth here is not the Secret Flame which is too brilliant to be looked upon by unascended beings. This is a focused ember from the Great Flame which has been drawn, guarded and expanded for this purpose. The triple action on your part of offering the gift of your life, receiving the benediction of Sanat Kumara, and absorbing the Flame into your own bodies will be of tremendous assistance to your individual evolution.

We shall have to complete Our Report in the morning because the major portion of the Ceremony will not take place until the entire procession has poured their offerings into the Flame, and as I, too, am among the humble members who carry a vessel, in which are some of your energies also, I must take My leave now and say "Goodnight!"

KUTHUMI
